

~ May 1 ~

What are you waiting for? A better version of self?

The world is tired of mysteries, does not understand symbols, and longs for Reality. What is Reality, where may It be found and how do you use it? Dr. Ernest Holmes

Genesis King Jim Version

In the Beginning Universal Consciousness created the basic polarity of Cause and Effect and the Body was void and without form. Filled with undifferentiated potential and infinite possibilities the Universal Consciousness thought about Its potential and possibilities and declared, “Let there be understanding, and there was understanding.” And Universal consciousness declared this understanding as good and divided the understanding from innocence. And Universal Consciousness called the understanding Day and the innocence Night...and the twilight of awareness and dawning of consciousness were the first step.

Then Universal Consciousness declared a firmament or formation of all the natural and universal laws of the Universal Subjective (subconscious) mind, i.e., the law of gravity, electricity and all laws that govern all aspects of life. And the awareness and consciousness of this idea was the second step

And then Universal Consciousness gave form to the waters or creative medium under heaven as cause or the sea of life and the dry land as the effect or earthly/material experiences of life. And Universal Consciousness declared this formation Good AND IT WAS SO. Then Universal Consciousness created the idea of multiplicity through the concept of seeds and the earth knew the experience of grass, herbs and fruit trees yielding seeds that reproduced in form according to the law. And Universal Consciousness declared this Good. And the awareness and consciousness of this idea was the third step.

Dr. Jim will read these as part of his talk

CONTEMPORARY SIGNIFICANCE AND APPLICATION OF THE CREATIVE PROCESS

Recognizing the allness of God

Because Spirit is all there was, or is, everything must be created from It. When we begin every undertaking with this recognition, we create in harmony and order because we are in tune with the Spirit from which we bring forth new experience.

Initiating action

The Law of Cause and Effect is universal. Cause and effect are inseparable and necessary for each other. Whatever we experience is not happenstance; there is a definite cause for it. If our experience appears to be void or limited, we can initiate action to change it.

Changing the cause

The realm of cause (heaven) is “within,” as Jesus explained. To bring forth a new effect (desired good) we must establish a new idea of image (cause) in mind (within). We have the power to change our experience by changing our mind.

Using the creative medium

We have access to Subjective Mind, the Creative Medium, which contains all the law governing life. We can direct it to bring forth any desired good which is in harmony with universal laws.

Have dominion over your experience

Intelligence (Light) permeates everything. Within each individual is the ability to select and initiate action through conscious thought and attention. Because we can select our thought we can have dominion over our experience.

Choosing to move from ignorance

We live in ignorance (darkness) until we come to understand the law of life and universal truth. As we choose to move from ignorance to understanding, our spiritual evolution unfolds new and improved life experiences.

Multiplying good

We live in a universe of abundant good. There is plenty for all and as we initiate, accept and use it, it multiplies. Whatever we create in our experience supports and increases itself; for example, “one success (or failure) after another.”

Sunday Program

Welcome: JR Mendivil, RScP & Board Member

SOLO

Featured Musician Gia Ciambotti

Piano: Ron Levy, Bass: David Weeks-Wynne, Guitar: Brian Potheir, Drums: Phil Carillo

Affirmative Prayer & Affirmation

Eve Chauvel, RScP

Affirmation

“Any account of Creation however brief implies, first of all, a Universal Intelligence which is omniscient, all-knowing. We call this Intelligence God. In philosophy, the word *Reality* is used. In science, the word *Principle*.”

— Dr. Ernest Holmes

Affirmation and Solo

Affirmation

Henry David Thoreau said, “I went to the woods because I wished to live deliberately, to front only the essential facts of life...” Dr. Jim Turrell said, “The woods represent the life we avoid living, the life that calls us into the world of the unknown and confronts us with our potential—the essential facts.”
