Creativity

Guided by the Creator, the Source, the Divine, in
touch with The Sacred

The patterns of an emerging sacred psychology are offered in the knowing that as we go within, we can access the depth structures of our being and build bridges to the great Archetypal realm wherein lie the dynamic designs that form and reform our reality. The Science of Mind shows us how to be active and creative citizens in a Universe and Innerverse richer than all previous imaginings.

The life which we live is the Universal Life expressing through us, else how could we live. Our thought and emotion is the use we make — consciously or unconsciously—of this original creative Thing that is the Cause of everything.

Therefore, we shall say that the mind, spirit, and intelligence which we find in ourselves is as much of this original, creative God as we understand.

READ THIS AFFIRMATIVE PRAYER TWICE A DAY!

I GUARANTEE THAT YOU WILL FEEL MORE PEACEFUL, AND PRESENT

Life is in an eternal state of complete unity with the Whole. The Conscious Mind of God is alive and filled with a Divine Intelligence that animates and creates a living potential ready to flow with ease and effortless genius.

I unify my creative understanding and open a channel that connects me with God's effortless power that animates what I think and feel into a life I am ready to live.

Right now, the Divine Power of life initiates all that is required to fulfill my highest desire. With joy and peace of mind I accept my good and celebrate my receptivity. In this moment my demonstration bears witness to the shape and form It provides. My life is full and rich with an understanding that makes it easy to receive. There can be no power in a life that lacks optimism. Any thought that robs me of my confidence is now dismissed and replaced with a productive feeling of inspired patience and absolute acceptance. All that is required for my complete demonstration already exists. Thank you, to whatever created my life. Know that I am grateful and inspired by the potential of my eternal and infinite existence. Released and blessed my word is now the reality of my life. Today I celebrate all that I am. AND DO IT IS!

Sunday Program

Welcome: Scott Peterson
