

7-10-2022

**Here is our prayer for the week. I invite you to contemplate it daily:**

The energy of the universe is in front of me, behind me, and all through me. Each of us is the action of the infinite, through us.

In this unity, we are all in communion. The infinite and all it's possibilities are at hand. Our thoughts fall into the fertile soil of the Infinite Mind.

As we individually offer our Desire to Demonstrate, my Seed of Thought into the unformed substance, I declare.

The universe is my center. I am supported and fulfilled. My vision of Joy and equanimity is manifest in my daily activities. I am love in action.

With Gratitude and Love, I place each Desire to Demonstrate into the soil of Now. I trust the process as it unfolds in my consciousness. I feel joy in the depth of my being.

And, I release and know each thought rises into perfect demonstration. And so, it is.
