The Art of Completion and the Practice of
Focus, Application, Initiative and
TRANSFORMATION

In his book, *The Science of Mind*, Dr. Holmes says,

- While It is easy to believe that God is perfect. We must also believe that the spirit in each of us is perfect.
- And, since it is difficult to believe that the objective man or woman is perfect, we must confine our statements to a realization of the spiritual perfection in all men and women.
- In such degree as our realization becomes a subjective embodiment, the objective healing will automatically take place.
- We know the background of human thought is, to a great extent, one of negation, a denial of an harmonious and spiritual Universe;
- Consequently, our outlook on Life must be transformed by the renewing of the mind, and even when the results are not immediately forthcoming, we must still maintain a calm serenity of thought.
- We must relight the torch of our imagination by “fire caught from heaven.”
- We must remain faithful to this vision for a realization of the Presence of God is the secret power of our work. SOM P 218

In his book, *The Way I am*, Dr. Jim says, “Transformation, the product of spiritual discipline that requires listening, affirmative prayer and a willingness to stay focused on the idea of your basic goodness until it manifests. This is what Jesus meant when he said, “Be ye transformed by the renewing of your mind.” Romans 12:2

Read this Affirmative Prayer twice a day aloud:

The nature of God is in all. All are one with the Divine Presence. I am one with this Divine Presence now and I speak my word for Peace. The power of God’s presence functions now through all of my thoughts, feelings, and behavior. Peace is now present in my awareness. Every moment is yet another opportunity to transform your life in the Principle of Peace. A Peace that is God’s presence which functions as the Healing Potential in each and every moment. There is no power in fear, anger, or feeling helpless. God is always with me working as it is embodied. Every reaction is welcomed by my embodied peace. Time is measured by the moment-to-moment presence of Peace in my Now. Sadness is welcome for it is the power of Light which brings understanding into me so It can function as the Presence of Love. My life unfolds and welcomes Peace. Peace is the Presence of Love working its way through me erasing all of my resistance. Peace is the energy of Love which acknowledges every cell in my body as perfect, whole, and complete. Peace is my acceptance of the Divine flow. Peace is the calm in my awareness. Peace is the emancipation of my heart. Thank you, God, for being my rock and Life’s eternal experience of Love. Released, the power of this word is already working miracles in the love of my life. All is well and unfolding as it should. AND SO IT IS!

Sunday Program

Welcome: Bob Estrada

Featured Musician

Tricia Freeman

Piano: Ron Levy, Bass: David Weeks-Wynne, Guitar: Carlyle Barriteau Drums: Phil Carillo:

Vocals: Erica Turrell

Affirmative Prayer & Affirmation

Kyle Moore, RScP, Board Member

Affirmation

“The body is healed as the inner mind is transformed; as the old and false images of thought are renewed by images of Truth and Life.”

— Dr. Ernest Holmes
