Compassion

Being one in spirit and of one mind.

The practitioner talks with their patient, explains to them the Law of Mind, teaches them the way, diagnoses their thought, points out to them that certain mental attitudes produce certain physical results, teaches them how to be harmonious in their thinking, how to be at peace, how to trust and believe in the Good. In other words, the practitioner lifts the client up mentally and spiritually, and supports their thought until they can stand alone.

A practitioner must be filled with the spirit of Divine Compassion. A practitioner must have a deep, underlying sense of unity and sympathy, else they will do but little good; but they must not have sympathy with the disease. The only guarantee of our Divinity is in its expression through our humanity. Consequently, an enlightened soul understands the meaning of sympathy and exercises it, but not morbidly. SOM P

God is the One Power that constitutes all of life. The presence of the Divine always expresses Love and responds to Its creation with compassion and kindness for all. I am one with the power of God's compassion. I am the agent of love's capacity that lives in unity and speaks the word that aligns my Higher Power in support of all who hear or read these words. Right now, the power of Universal Love responds to its creation unconditionally and expands the Universal consciousness in all, creating Peace of Mind, Love, and Understanding. There is no power in a thought that unifies with limitation or fear. The power is always in the thought that promotes Oneness, Love, and Faith. Today I live in the power of Universal Intelligence. Today I express my Love and remain faithful, aligned with the power of God's Unlimited Good. Thank you, God, for all my blessings and all my friends and loved ones. I am blessed with a perfect, whole, and complete life. Released, this word is now the truth and lives as the expression of who I am. AND SO IT IS!

#### **Affirmation**

“Compassionate people ask for what they need. They say no when they need to, and when they say yes, they mean it. They're compassionate because their boundaries keep them out of resentment.”

As we let our light shine, we unconsciously give other people permission to do the same. As we are liberated from our own fear, our presence actually liberates others.
