Here is our prayer for the week. I invite you to contemplate it daily:

When you arise in the morning think of what a privilege it is to be alive, to think, to enjoy, to love. Marcus Aurelius

Initiative – Happy NOW Year

We are awash in the unformed substance. Our idea of time and experience is the rolling and turning of Universal Intelligence. God is in action right in front of us.

My mind is unified and engaged with Source. I am alight with the flow of Spirit.

I declare my life is unfolding Joy. Initiative rises within and flows through my thoughts and actions. I sow new seeds of opportunity and prosperity.

I deny power to condition and circumstance. I dust away old thoughts that no longer serve my highest good. I occupy my mind with the Happy NOW Year.

Gratefully, I allow my mind to embrace the love and joy that flows to me.

And with conviction and trust, I release my word into Divine Mind.

And so, it is. Amen
